# LALIVE ranked among the leading investigations firms worldwide by GIR

We are delighted to announce that LALIVE is again ranked among the leading investigations firms worldwide by Global Investigations Review, in the recently published annual GIR 100 guide. LALIVE has been recognised by the publication in every edition since its inception five years ago. The GIR 100 is the premier platform for the analysis of leading cross-border investigations practices. Based on extensive research, it selects 100 firms globally with expertise to handle sophisticated cross-border government-led and internal investigations, thus acting as the go-to guide for inhouse counsel. The 2020 guide highlights both the firm's expertise, stating that "LALIVE has some of the best minds in the local white-collar bar with a depth of expertise that few rivals can match" and the outstanding work of six partners (Marc Henzelin, Alexander Troller, Sandrine Giroud, Daniel Lucien Bühr, Simone Nadelhofer and Matthias Gstoehl) and legal project manager Katja Böttcher.
